// EXPERIENCE

UI Developer @ RainFocus 2023 — Present

Using modern web tools – React, Typescript, & SCSS – this role involves: enhancing the software via product teams, styling the product to match client branding, and updating rainfocus.com.

// FREELANCE

Developer @ Sunder 2023 — Present

Working alongside Sunder's creative director, this role involves bringing design concepts to life for joinsunder.com, ensuring accessibility, responsiveness, & cross-browser/device compatibility.
